

Please do not change wisconsin's do not call list. Since we have been on this list, our evenings and weekends have been virtually free of nonsensical interruptions at the worst times imaginable. If I or anyone in my family is interested in obtaining a product, we have the knowledge and ability to make those choices on our own without solicitation by phone. Since we pay for our phone use, our usage of that service should be under our control to the furthest extent possible. Thank you.
